

Reviewer Recognition Form: APC Waiver

In recognition of the service provided by our peer reviewers, the ASTRO journals are providing a reward for the completion of twelve timely reviews within three years. Submit this completed sheet to the [journal office](#), and you will receive a voucher code.

This code can be redeemed for either: One (1) free open access fee for *Advances in Radiation Oncology*, **or** 50% off one (1) open access fee at either the *International Journal of Radiation Oncology • Biology • Physics* or *Practical Radiation Oncology*. This code can be redeemed for use on any accepted submission where the awardee is an author.

Please use the form below to indicate which reviews should be considered. Reviews performed for any of the three ASTRO journals can be entered on the same form. Completed reviews can be viewed in your Editorial Manager account for each journal by logging in as a reviewer and selecting “Completed Assignments.” Reviews entered for credit will be screened for quality and reasonable timeliness, with final approval from the Editor-in-Chief. Reviews of revisions may be acceptable; however, they must demonstrate time and effort. If entering a review of a revision, please be sure to include the revision number in the manuscript number (likely R1 or R2 at the end of the manuscript number). **Only reviews completed on or after 1/1/2022 will be accepted.**
