Definition

Industry Satellite Symposium (ISS) refers to any educational activity that is independently organized and held in conjunction with ASTRO's Annual Meeting. This includes any educational activity that carries Continuing Medical Education (CME) credit and is not sponsored by ASTRO.

Application Process

The organization interested in holding an ISS shall submit a written application (Appendix A) and a completed Letter of Agreement (Appendix B) to ASTRO's Education Department by May 13, 2024. Applications will be reviewed by members of ASTRO's Annual Meeting planning committees. Time and space constraints may limit the number of opportunities available.*

Compliance

Upon approval, the ISS CME provider will be invoiced based on the fee schedule outlined in Appendix D. The supporter will be invited to participate with the expectation that the educational activity is held in accordance with the standards established by the Accreditation Council for Continuing Medical Education (ACCME), the AdvaMed Code of Ethics on Interactions with Health Care Professionals, the American Medical Association (AMA)'s Code of Ethics Opinion relating to Continuing Medical Education and Gifts to Physicians from Industry, the Food and Drug Administration (FDA) regulations regarding Industry Supported Scientific and Educational Activities, the Medical Imaging and Technology Alliance (MITA) Code of Ethics on Interactions with Health Care Providers, the National Electronic Manufacturers Association (NEMA) Code of Ethics on Interactions with Health Care Providers, the Pharmaceutical Research and Manufacturers of America (PhRMA) Code on Interactions with Health Care Professional and the Department of Health and Human Services' Office of Inspector General (OIG) Compliance Program Guidance for Pharmaceutical Manufacturers.

It is strongly recommended that appropriate source and reference citations accompany all data presented in slides and program materials.

Programs must be final upon submission. Incomplete applications will not be reviewed.
