

## 2025 ASTRO Annual Meeting Exhibitor Rules, Regulation and Policies

The American Society for Radiation Oncology, hereinafter referred to as "ASTRO," has established the following 2025 ASTRO Annual Meeting Exhibitor Rules, Regulations and Policies, hereinafter referred to as "Rules," to protect the integrity of the technical exhibits in the Exhibit Hall at the 2025 ASTRO Annual Meeting, hereinafter referred to as the "Exhibit Hall," and ensure compliance with laws, codes, ordinances and contracts with the exhibition facility. "ASTRO Show Management" as used herein, shall refer to all officers, employees, contractors, volunteers and agents acting with authority from ASTRO. It is the responsibility of the official exhibitor representative as indicated on the Application and Contract for Exhibit Space, hereinafter referred to as "Exhibitor," to ensure that all booth personnel and contractors working on behalf of the Exhibitor adhere to the Rules and conduct themselves in a professional manner.

### 1. Purpose

The purpose of the 2025 ASTRO Annual Meeting, hereinafter referred to as "the Event," is to further ASTRO's objectives for the Event by providing a supportive forum utilizing exhibits, educational opportunities and networking opportunities.

### 2. Eligibility

Qualified exhibitors are limited to firms, organizations and agencies whose exhibits promote an awareness of products, technologies and services that are recognized and approved by ASTRO Show Management and who act in accord with the Rules, [Event Conduct Standards](#), and other requirements for the Event. ASTRO has the sole right to determine the final eligibility and qualification of any firm, organization, agency or product for inclusion in the Exhibit Hall. Rulings of ASTRO shall, in all instances, be final with regard to allowed use of exhibit space in the Exhibit Hall. Exhibitor may not assign, sublet or apportion to others the whole or any part of the space that they are allocated. Only the Exhibitor as identified on the Application and Contract for Exhibit Space that has been approved by ASTRO may exhibit at the Event in the Exhibit Hall. Only those products and/or services that are manufactured or distributed by Exhibitor may be displayed in the Exhibit Hall.

All outstanding exhibit payments for booth, expo suite, private meeting room cancellations or downsizing from prior ASTRO events must be paid in full in order to be eligible to apply and contract for any space at the 2025 Event or future ASTRO Annual Meetings.

### 3. Exhibit Space Rules

The Exhibit Hall atmosphere must always be congruent with the educational mission of ASTRO. All booth activities and content must be professional in nature and provide educational information related to the field of radiation oncology.

All exhibit space must be carpeted or covered with an ASTRO approved material at the expense of the Exhibitor. Bare floors in booths are not permitted. The minimum exhibit space is 10 foot by 10 foot.

**Inline booths** will be provided with 8-foot high backdrop, 36-inch high draped side rails and a booth identification sign. Hanging signs are not permitted above inline booths. The maximum height of 8 feet is allowed in the rear half of an inline booth and a maximum of 4 feet in the front half of an inline booth. No objects or materials that obstruct visibility will be permitted in the front half of an inline booth.

**Corner booths** are inline booths which are open at one end with intersecting aisles on two sides. All other guidelines for inline booths apply.

**Island booths** are exposed to aisles on all four sides. An island booth is typically 400 square feet (20 foot by 20 foot) or larger, although an island booth may be configured differently. Exhibitors who wish to construct an island booth are required to submit a rendering of the booth with elevation plans and all necessary measurements clearly indicated, as well as any hanging signage, truss/lighting, suspended product, etc., for ASTRO Show Management's final approval, by the submission date as stated in the Exhibitor Resource Center.

Island booths must be constructed to allow access on all four sides. Solid walls cannot span more than 30 percent of the booth dimensions from front to back and side to side. Island booths must provide clear sight lines so that the surrounding area can be viewed around and through the booth and that neighboring booths are not obstructed. *Please note that opaque and/or frosted walls are not considered see-through.* ASTRO reserves the right to request additional modifications to Exhibitor's booth design if clear sight lines are not visible and/or neighboring booths will be adversely blocked.

All kiosks, podium, help desks, etc. must be set back two (2) feet into the booth from the aisles to allow attendees to view booth items within the confines of the booth. Any theater presentation or demonstration areas should be set back a minimum of five (5) feet from the booth edge and allow adequate room for seating or standing without obstructing any aisles.

Island booths may not exceed 24 feet in height from the floor to the top of any structure or from the floor to the top of any signage, unless approved in writing in advance by ASTRO Show Management. Any structure or signage exceeding the 24 feet height rule will be adjusted by ASTRO Show Management to conform with this regulation at the expense of the Exhibitor. Towers and other components over 16 feet in height will be engineered appropriate to their use and constructed from drawings bearing the stamp of a reviewing structural engineer. Covered or roofed areas must conform to local fire regulations. Exhibitor is responsible for any costs related to this requirement. Contact ASTRO Show Management for more information about these regulations.

Island booths may use special lighting. All lighting must be directly over or in the Exhibitor's booth and must not affect the aisle or other booths. Exhibit Hall overhead lighting may be adjusted with advance written permission from ASTRO Show Management and must not affect aisles or other

booths in any manner. The Exhibitor is responsible for any and all costs related to this request.

*\*Exceptions will be made on a case-by-case basis due to federal regulations.*

**Raised floors** must be non-hazardous and wheelchair accessible. Edges of raised floors must be ramped or guarded sufficiently to prevent people from tripping or falling at transition.

**Bare floors in booths are not permitted.** All exhibit floor spaces must be completely carpeted or covered with an approved material. If an Exhibitor's floor space is not covered by 2:00 p.m. on the day prior to the Exhibit Hall opening, ASTRO Show Management will arrange for the Official Service Contractor to install carpet at the Exhibitor's expense.

**Unfinished sides/back of booth is not permitted.** Electrical cords, rear sides of audio visual equipment and other aspects of the exhibit not intended for public view must be concealed or displayed so as not to distract from neighboring exhibits. Any portion of exhibit with visible unfinished sides or back exposed will be draped off at the Exhibitor's expense.

**Multi-level booths or booths with ceilings** must follow the same rules as an island booth and must have a booth rendering with a stamp of a qualified structural engineer attesting to its construction standards. Any company constructing a two-story booth must comply with the Moscone Center guidelines. Contact ASTRO Show Management for detailed instructions.

All island booths must complete and submit booth renderings including elevations to ASTRO Show Management approval. Booth renderings must be submitted in a digital format (i.e., PDF or JPEG file) via the online booth rendering submission process in the Exhibitor Resource Center.

### **Hanging Signs**

Hanging signs will only be permitted for island booths that are 20 foot by 20 foot or larger. Hanging signs may not block the visibility of ASTRO signs or other booths. Hanging digital signs are permitted provided that the images are static in nature and do not flash or move.

The top of an Exhibitor's booth sign may not extend more than 24 feet from the floor to the top of the sign. Hanging signs also require a minimum clearance of 16 feet from the bottom of the sign to the Exhibit Hall floor. Therefore, the bottom of any hanging sign cannot be hung lower than 16 feet. Hanging signs must be hung directly over the island booth and not in the aisles.

All hanging signs must be approved in advance by ASTRO Show Management by the date stated in the Exhibitor Resource Center. All hanging signs must be shipped in advance to the advance warehouse. Signs not received at the advance warehouse will not be installed.

All exhibitors who plan to hang a sign are required to submit detailed floor plans with placement measurements to ASTRO Show Management for approval by the date stated in the Exhibitor Resource Center.

Hanging sign renderings must be submitted in a digital format (i.e., PDF or JPEG file) via the rigging rendering submission process in the Exhibitor Resource Center.

Hanging signs weighing 500 lbs. or more must have drawings reviewed, signed and stamped by a licensed structural engineer to certify structural integrity and safety.

## **Lighting**

Lighting truss may hang at the edge of an island booth. Lighting truss may not hang higher than 24 feet. Lighting must be directly over or in the Exhibitor's booth and cannot affect other Exhibitors or aisles.

Exhibit Hall lighting may be dimmed or backed out to accommodate Exhibitors' lighting requirements at the discretion of ASTRO Show Management. ASTRO Show Management will not approve backing out overhead lights which may affect aisles or another Exhibitor's space. The Exhibitor is responsible for all costs associated with this request. Requests may be made on site at the Exhibitor Service Desk.

## **4. Local Laws and Regulations**

Exhibitors must comply with all applicable laws and regulations, including rules of the Moscone Center. Exhibitors must follow government guidelines under the Americans with Disabilities Act of 1990 when providing access to exhibit space in the Exhibit Hall. All electrical wiring and equipment installed must comply with the facility/local electrical code and fire department regulations.

## **5. Height and Non-Blocking Display Regulations**

All exhibit display construction designs must conform to the regulations set forth under Section 3, Exhibit Space Rules. Details as to what is allowed for each Exhibitor's booth, so as to enable maximum use of the exhibit space without any detrimental effect on neighboring Exhibitors or the Exhibit Hall as a whole, is solely determined by ASTRO. ASTRO shall have full authority for approval or arrangement and appearance of items displayed.

ASTRO, may, at its discretion, require replacement, rearrangement or redecoration of any item or any Exhibitor booth, and no liability shall attach to ASTRO for the costs that may evolve upon Exhibitor thereby.

Exhibitors with special backgrounds or side dividers must make certain that such material is furnished and placed in such a manner as to not be unsightly to Exhibitors in neighboring booths. If such surfaces remain unfinished at the published end of the setup time of the Exhibit Hall, ASTRO Show Management shall authorize the Official Service Contractor to make the necessary finish adjustments and the Exhibitor must pay all charges involved thereby.

## **6. Electrical Safety**

All wiring on booths or display fixtures within an Exhibitor's booth must meet underwriters' rules and standard fire department inspection applicable under all appropriate state, county, city and Moscone Center electrical and fire codes and regulations. This applies to booth construction only and not to pre-wired radio and electronic equipment.

### **30. Distribution of Giveaways**

In 2010, ASTRO signed on to the “Code for Interactions with Companies” that was drafted by the Council of Medical Specialty Societies (CMSS). This code draws upon on a number of existing codes including those developed by PhRMA, AdvaMed and the AMA and is designed to ensure that societies’ interactions with companies are independent and transparent.

The CMSS Code states that societies may only permit exhibitor giveaways that are educational and modest in value (Section 5.4.2). ASTRO policy requires that all giveaways or items to be raffled by Exhibitors must be designed primarily for the education of patients or health care professionals and the value of giveaways or items to be raffled must not exceed \$10. By matching ASTRO’s giveaway policies with the CMSS Code, it is our intent to place all Exhibitors on an even playing field and provide attendees with a meeting experience focused on education. ASTRO Show Management reserves the right to ask any Exhibitor to cease distributing items that do not meet our requirements.

All booth giveaways must be approved by ASTRO Show Management in advance of the meeting. To request approval, Exhibitor must submit a giveaway request via the online submission process in the Exhibitor Resource Center. Food and beverage items are considered to be a giveaway, and Exhibitor must submit such items for approval.

ASTRO may also, on a limited basis, grant Exhibitor requests for permission to have drawings or raffles for prizes. Any drawing or raffle must be conducted in compliance with all applicable laws and regulations and prizes must be consistent with the requirements for giveaways set forth above. Requests for permission to have drawings or raffles must be submitted via the online submission process in the Exhibitor Resource Center by August 25, 2025. If given permission, Exhibitor will warrant that it has complied with all applicable laws and regulations and provide copies of any applicable permits or licenses upon request.

Exhibitor acknowledges that by allowing the giveaway, drawing or raffle, ASTRO is not assuming responsibility for or indicating the legal compliance of the Exhibitor’s giveaway, drawing or raffle and Exhibitor agrees to hold ASTRO and its directors, employees, volunteers and agents, harmless from any costs or expenses incurred resulting from Exhibitor’s giveaway, drawing or raffle.

**The following Exhibitor giveaway items are permitted in the Exhibit Hall so long as they do not exceed the \$10 value (with the exception of the cost for bags):**

Food and beverage items, pens, notepads, rulers, sticky notes, CDs and /or USB Sticks loaded with educational content, books, journals, publications, hand sanitizer and plastic bags or bags made of recycled material that cost \$1.50 or less and measure no larger than 12” x 15”.

**The following Exhibitor giveaway items are NOT permitted in the Exhibit Hall:**

Tote bags, golf/tennis balls, hats, t-shirts, music CDs, coupons for personal services such as massages, gift certificates, mugs, watches and prescription and non-prescription drugs.

While the CMSS Code does not specify to whether giveaways may have a corporate logo on them, a number of the other codes do restrict logo use on giveaways.

Each company is responsible for understanding and following the specific requirements of any code they have signed on to, the policies within the CMSS Code, the Physician Payments Sunshine/Open Payment Act and any other state and federal laws.
